

Key Cleaning Swab

Keys Sticking Down or Just Plain Dirty?

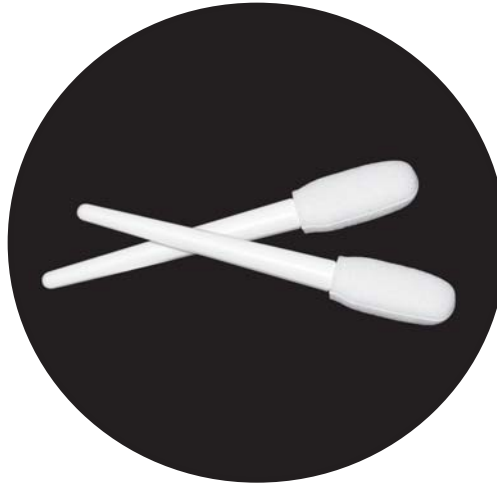

Easily Clean debris from the keys surface as well as in and around keys.

How Do Cleaning Cards Work?

Cleaning card technology allows for a thorough cleaning of transaction devices, such as card and check readers, ATM's and receipt printers, without costly outside technical assistance. Used as preventive maintenance or to quickly correct device errors, these products remove dirt, and other contaminants which inhibit the device from working properly.

Each transaction device requires specific cleaning products. Choose the right product for your device for proper maintenance.

Key Cleaning Swab

Ideal Cleaning on

Keyboards

Telephone Keys

Calculator Keys

Keyboards are one of the most used pieces of equipment in this computer age. Nearly every task is entered into systems for accuracy and to share vital information. Ever look at your own keyboard? Through use, spills and environmental dust and debris, these keyboards take a lot of abuse. Like every vital piece of equipment keeping them clean and functioning is important to eliminate errors due sticking keys.

Key Cleaning Swabs are designed to remove these contaminants quickly. Safe and effective, this product has a compact head to clean between the keys. The IPA solution will remove even the most stubborn of messes and kill germs in the process.

Available in boxes of 25 swabs
